

2024 AEIRS Annual Meeting Poster Presentation Guidelines

Poster presentations will be shared on large monitors during the July 17th Welcome Reception where presenters can interact with conference attendees and answer questions. The poster presentations will not be orally presented.

General Guidelines:

- Posters should be created electronically using Microsoft PowerPoint
 - To set slide dimensions, follow the steps outlined in [Change the size of your slides](#).
- Posters should be well laid out, visually appealing, and professional, including the presenter's names, credentials, and sponsoring institution.
- Posters should guide conference attendees through the study's purpose, methodology, results, and discussion yet must be concise. Follow your institution's template as appropriate.
- Presenters are encouraged to include a QR code for conference attendees' access to supplemental material, if applicable.
- Presenters are responsible for obtaining permission to use copyrighted material, and it must be referenced accordingly.
- Poster file should be saved as a .pdf document.
- Presenters will engage with conference attendees and answer questions during the Welcome Reception
